

LS Design & Draughting - Mission

At the heart of our work is a

Commitment to delivering exceptional service, with every design carefully tailored to meet our client's unique needs.

With your imagination and our expertise, we bring dream designs to life – turning vision into reality through thoughtful planning, creativity, and craftsmanship.

Whether it's a brand-new home, a stylish extension, a compact pod design, or a full-scale commercial project.

COMPANY PROFILE

LS Design & Draughting Bio

Established in 2014, LS Design & Draughting is a trusted design studio offering a comprehensive range of architectural and drafting services across Namibia and South Africa. With over 300 satisfied clients to date, we pride ourselves on delivering professional, efficient, and personalized design solutions.

Our Services include :

- + Council submission plans (available in Namibia, where we are formally registered) – In process in South Africa**
- + 3D concept designs and draughting services for residential, commercial, and custom modular structures such as pods in any size**
- + Interior design visualizations to help clients better envision their space**
- + Project costing and material estimation for both light steel frame and brick and mortar structures, supporting accurate budgeting and planning for clients and construction companies**

We Specialize in a variety of building systems including :

- + Light Steel Frame Design**
- + Traditional Brick & Mortar**
- + Heavy Steel Structure Designs**

Our reach extends beyond private clients – we also consult with construction companies and firms that do not have in-house design services, offering tailored solutions that support their project goals.

Founder, Lorista Steyn, has contributed to several light steel frame projects in the Western Cape, including structural design files for manufacturing and project planning in the design field. Her experience also includes innovative tiny home designs and modular units tailored to meet unique client needs.

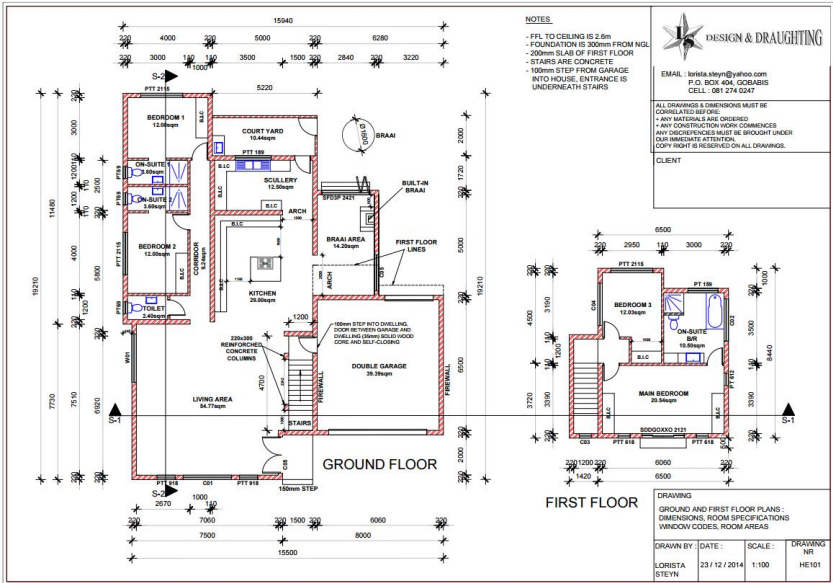

At LS Design & Draughting, we're passionate about turning your vision into reality – quickly, professionally, and with excellence in every detail.
